Summary

B.Tech IT student with strong programming skills in C++, Java, and Python, hands-on web development experience, and solid knowledge of Data Structures and Core CS concepts. Aspiring Software Developer.

Skills

Programming Languages: C, C++, Java, Python, JavaScript

Web Development: HTML, CSS, JS, React.js, Node.js, Express.js, MongoDB (MERN Stack), REST API Integration

Core Computer Science: DSA, DBMS, Operating Systems, Computer Networks

Tools & Platforms: Git, GitHub, Linux, VS Code

Experience

Front-End Developer Intern

June 2025 – August 2025

Skillbit Technologies (Remote)

Tools Used: HTML, CSS, JavaScript

- Developed responsive web applications using HTML, CSS, and JavaScript following modern UI/UX principles.
- Integrated REST APIs to dynamically fetch and display real-time data in web interfaces.
- Built and optimized reusable UI components to improve performance and maintainability.
- Collaborated in an agile environment to implement feature enhancements and resolve UI bugs.

Projects

Employee Management System | *React.js, Tailwind CSS, JavaScript (ES6+), localStorage*

- Built a **role-based dashboard** with **2 user roles** and full **CRUD** across **3+ entity** types (employees, tasks, departments) using React.js component-driven architecture.
- Implemented **state management** and localStorage persistence, reducing unnecessary re-renders by **~25%** and maintaining data across **100%** of session reloads

Human Activity Recognition using WiFi Sensing | *Python, Machine Learning*

Ongoing

- Built a device-free Human Activity Recognition system using WiFi CSI signals, performing end-to-end signal preprocessing — noise filtering, normalization, feature extraction, and time-series segmentation — on **10,000+ samples** across **6+ activity classes**.
- Trained and evaluated SVM and Random Forest models achieving **up to 92% classification accuracy** and **F1-score of 0.89**, validated using **5-fold cross-validation** with hyperparameter tuning.

Awards & Certifications

- **🔗 LeetCode:** Achieved a contest rating of 1664 (Top 16.14% globally) — with 120+ problems solved across all different levels consistently participates in weekly coding contests.
- **One Week Online STC on Emerging Technologies in Computing & Communication – NIT Jalandhar (Oct 2023):** Successfully completed a technical program organized by the Department of Computer Science & Engineering on emerging computing and communication technologies.
- **DSA with C++ Certification – Apna College (2024):** Practiced data structures and algorithmic problem-solving using C++ with focus on time and space optimization.
- **DSA with Java Certification – Apna College (2025):** Completed structured training covering arrays, recursion, sorting, stacks, queues, trees, graphs, and dynamic programming.

Education

B.Tech in Information Technology

Expected 2027

Dr. B R Ambedkar National Institute of Technology, Jalandhar

CGPA: 6.05/10

Senior Secondary (XII), BSEB

2022

K.N.S.J Inter College

74.4%
